PROFESSINAL SUMMARY

I am a motivated and detail-oriented IT professional with hands-on experience in full-stack development, database design, and modern web technologies. I am skilled in building responsive web applications, working with RESTful APIs, and using tools like Git, Docker, and PostgreSQL. Adept at troubleshooting, debugging, and collaborating in agile environments. Strong foundation in both frontend and backend development, with a commitment to continuous learning and clean, maintainable code. Eager to contribute to innovative tech solutions and grow within a dynamic development team.

WORK EXPERIENCE

PAK'nSAVE, Hastings – *Online Assistant*
July 2025 – Current

- Pick, pack, and process customer online orders efficiently and accurately to ensure a smooth Click & Collect experience.
- Deliver high-quality customer service by fulfilling orders with care and responding to specific customer preferences or notes.
- Work independently and within a team to meet tight deadlines in a fast-paced environment, adapting to busy and quiet periods effectively.

Mitre 10 Mega, Hastings – *Retail salesperson*
April 2021 – July 2025

- Assist customers with product queries, provide expert knowledge, and facilitate returns/repairs.
- Communicate with suppliers.
- Merchandise products.
- Implemented Trello to manage tasks and improve departmental efficiency.

ABC Software, Taradale – *Intern Software Developer*
August 2024 – November 2024

- Contributed to the development and maintenance of full-stack web applications, collaborating with a team to deliver software solutions

Eastern Institute of Technology, Taradale

July 2022 – June 2025

New Zealand Certificate in Information Technology (Level 5)

Bachelor of Computer Systems with endorsement in Systems Development (Level 7)

PROJECTS

Studentwell, *Student health and wellness web app using Laravel*

May 2025

- Designed and developed a full-featured wellness web app independently as a capstone project.
- Implemented core functionality including mood tracking, sleep and exercise logs, goal setting, and a user forum.
- Built an admin dashboard with user management and content modification tools.
- Integrated Chart.js to generate dynamic graphs for visual health insights.
- Developed authentication, role-based access control, and support resources.
- Focused heavily on clean UI design and seamless UX, delivering a polished, responsive interface across devices.

https://studentwell-agcndaayazc8c4gj.newzealandnorth-01.azurewebsites.net/

ABC Packer SaaS, *ABC Software*

November 2024

- Contributed to full-stack development using C#, Angular, and T-SQL.
- Developed and debugged CRUD functionality for core application features.
- Improved UI/UX by implementing features like the "bucket" dual-list selector.
- Gained hands-on experience with frameworks like Entity Framework, Automapper, and Bootstrap.
- Collaborated with senior developers to align coding standards and project goals.

Emergency Device Management System, *EIT*

November 2024

- Developed a digital solution for managing emergency devices for improved compliance and data management.

- Developed features to track device details, automate inspection/replacement reminders, and manage user/admin access.
- Integrated an interactive campus map for easy device location tracking.
- Ensured scalability for future devices and multiple locations.
- Collaborated closely with EIT's facilities team to meet operational needs and safety standards.

Phone Repair System using React

Nov 2023

https://alexgithub777.github.io/project2/

Implementation of Trello, *Mitre 10 Mega*

August 2023

- Successfully implemented Trello to improve task management and team efficiency.
- Conducted training sessions to familiarize team members with Trello's features and workflows.
- Customized Trello boards to align with workplace requirements, enhancing team collaboration.
